1. How would you describe your skills as a genealogical researcher?  
 Beginner. I don't really know anything about genealogy.  
 Novice. I have a little experience but not much.  
 Moderate. I've done some research and am ready to move ahead.  
 Expert. I've done a lot of research and would be willing to contribute to the class where appropriate.
2. Please describe any goals you have for this class, the more specific the better.
3. Please describe your interests. Who are you researching (or who would you like to research)? When and where did they live? Are these people your ancestors? Give as much detail as possible. Sources selected just for you will be provided in class.
4. How much research have you done on the above individuals?  
 None yet  
 A little  
 Lots
5. If you have done research on the above individuals, please list the main sources you have used. If you have gotten stuck at some point, please describe what you were looking for.

Thank you for your responses. The more specific they are, the better the course can be tailored to your interests.
